A website grade of **84/100** for **www.walshhonda.com** means that of the millions of websites that have previously been evaluated, our algorithm has calculated that this site scores higher than **84%** of them in terms of its marketing effectiveness. The algorithm uses a proprietary blend of over 50 different variables, including search engine data , website structure, approximate traffic, site performance, and others.

Track changes to your grade by [signing up](#) for a monthly email update on your grade and occasional tips from HubSpot. [Take a look](#) at a sample of the email you'll receive.

I. Create Content

Every web page has the potential to rank well in search engines and draw traffic from other sources, like social media sites and the blogosphere. Of course, whether a page draws traffic (and links) depends on whether it's optimized and how remarkable (useful, interesting, etc.) it is. But in general, most pages do "ok" and contribute to the cause, so it's both a quality and a quantity game.

A. Blog Analysis

Blogging is a great way to reach your target audience with your thoughts, opinions, and offerings on relevant topics.

Blog Not Found

B. Blog Grade: Not Graded

[Blog Grader](#) is a free tool developed by [HubSpot](#), similar to Website Grader but specifically for blogs.

Your Blog is not yet graded by [BlogGrader](#). Your Blog Grade is based on a measurement of the traffic levels to your blog and the number and quality of links pointing at it. You should submit your blog on [BlogGrader.com](#), it's free

C. Recent Blog Articles

We could not get your blog recent articles.

D. Google Indexed Pages: 61,800

This number is the approximate number of pages on [www.walshhonda.com](#) that have been stored in the Google index. The Google web crawler will visit the website periodically and look for new content for its index. Generally, the more pages your site has within the Google cache, the better.

E. Readability Level: Advanced / Doctoral Degree

This score measures the approximate level of education necessary to read and understand the web page content. In most cases, the content should be made to be simple so that a majority of the target audience can understand it.

II. Optimize

Optimizing that content is a key step, however, to ensure you give your valuable content the best chance possible of drawing traffic from the web. In essence, this section is about maximizing your ROC - return on content.

A. Metadata

Metadata tags allow you to tell the search engines what your web page is about. [Start a HubSpot trial today](#) to start improving your metadata.

Page Title	Macon Georgia Honda Dealer Walsh Honda New Honda, Used Cars, Trucks, SUVs in GA
Meta Description	Walsh Honda, your Georgia Honda car dealership serving Macon and surrounding areas. Auto Dealership selling new and used cars, trucks, and SUVs.

B. Heading Summary

Similar to how newspapers and magazines use headings and sub-headings to help readers, websites can use special tags in their HTML. These tags not only help human readers read the content, they also help search engine spiders better understand the content on a page and what is most important. It is generally a good idea to use heading tags to help signal to the search engines, what the web page is about.

Total headings found: 4. [See details.](#)

C. Image Summary

Images are a great way to enhance a website from a user's perspective. However, it is important to note that search engine crawlers cannot really "see" images. So, if you have lots of images that contain textual content within the image itself, this content will not be seen by the crawlers.

HTML helps address this issue by providing a way to specify the textual content for an image using the "alt" attribute. The alt attribute allows web pages to assign specific text as the "alternative" content for images for those that cannot view the images themselves. This can be search engine crawlers or text-only web browsers.

Total images found: 39 , 0 image(s) don't have ALT text. [See details.](#)

Too Many Images Found.
 Having many images on the web page means the user has to wait longer to view your page. This web page has **39** images.

 It's usually better to have fewer or smaller images. Sometimes simply resizing your images will make them smaller in size, and your web page will load faster.

D. Interior Page Analysis: 3 Pages Processed

We looked at a few other pages on your website to see how well they are optimized. This sort of interior page analysis can reveal exciting opportunities for you to target specific keywords or visitors. You can then create landing pages optimized towards converting those visitors into customers.

E. Domain Info

Most experts agree that you should register your domain for a long time, because search engines factor domain "stability" when looking at your pages.

Domain Age	13 years, 2 months, 2 weeks
Time To Expiration	8 years, 9 months, 1 week

Congratulations! This domain is registered for more than one year.
 Google and other search engines like to see domains that have been registered for extended periods of time as this shows a commitment to the domain name. It also is an indicator that this website is not a temporary spam site.

III. Promote

Now that you are producing remarkable content and optimizing it for search engines and other channels, you are ready to start promoting your content.

A. del.icio.us bookmarks: N/A

[del.icio.us](#) is a social bookmarking site. Users can save links they wish to keep for later reference on the site, and pages that have been saved many times are displayed in a special "hot" section which can drive thousands of visits.

B. Link Tweet Summary

[TweetMeme](#) is a service which aggregates all the popular links on [Twitter](#) to determine which links are popular. Tweets and retweets help drive traffic to the content that you have created.

Could not find tweets referring to your site via [TweetMeme](#). Quick, go create some interesting content that will get people talking!

C. Twitter Grade

IV. Convert

Getting found sure is fun. You're writing articles and producing videos (creating remarkable content), you're an SEO ninja by now (Optimize), and you're using all the social media sites and running email and ppc campaigns (Promote). At the end of the day, however, we aren't in this for fun. We're also not in this for traffic. The goal is quality sales leads and customers, so let's focus now on converting as much of your traffic as possible to leads and customers.

A. RSS Feed: Not Found

RSS (Really Simple Syndication) is a standard way to easily deliver content to visitors after they've left your website but they're still interested in your subject. RSS is commonly used with blogs, news feeds, and other formatted news or other sources of information.

RSS is an industry standard syndication approach that allows users to 'subscribe' to your blog so that they are automatically notified when new content is posted. There are a variety of free RSS applications available that let site visitors subscribe and consume content.

Though it is possible this site has RSS elsewhere on the site, it is best to make the feed discoverable on the home page itself.

B. Conversion Form: Not Found

Conversion forms are the primary way to get leads from your website. Collect contact information from your visitors so that you can follow up with them later and be in touch. Without forms, you can't convert your website traffic into customers.

The web page does not seem to contain any type of signup form where visitors can subscribe to a newsletter or future updates.

We would suggest adding some type of simple subscription form (at a minimum) that allows users to get email updates. This is a great way for visitors to express their interest in the company and its offering and for the business to stay in touch. Though RSS usage continues to increase, email is still what a majority of site visitors know and understand.

V. Analyze

Check out how you compare to other similar websites. You need to monitor your traffic rank as well and see if your optimizations and new content are showing benefits. You will be able to draw conclusions from your competitors and other sites that are related to your business.

A. Traffic Rank: Top 5.12 %

[Alexa](#) is an online service that measures traffic for millions of sites on the Internet in a similar way to Nielsen television show ratings.

Your website has an Alexa rank of **1,592,614** which is in the top **5.12 %** of all websites.

B. Score Summary
